All patients deserve the highest level of care – even if those patients aren’t people. At Terumo, our line of veterinary products are bred for performance and designed to exceed the healthcare needs of pets, and the expectations of both clients and modern veterinary practices.

Terumo’s line of **Sur-Vet®** veterinary products are specially designed for use in the modern veterinary office. A recent study* confirms that Terumo needles are sharper, and as you and your patients know, sharper is better.

For more nearly 100 years, Terumo Medical Corporation has been delivering high quality medical products. Our needles are known worldwide for extreme sharpness, with a double-bevel design. In total, we offer more than 1,500 medical products. Our defining mission is to help you, the health care professional, help the patient you serve.

Sur-Vet® Surflo ETFE I.V. Catheters

THE #1 CATHETER

Over 67% of vets nationwide prefer
Sur-Vet® Surflo ETFE I.V. Catheters.*

Sur-Vet® Surflo ETFE I.V. Catheters

Packed: 50/box, 4 boxes/case (200)

Product Number	Description	
	Catheter	Needle Gauge
■ SROX1832V	18G x 1 1/4"	20G
■ SROX2025V	20G x 1"	22G
■ SROX2032V	20G x 1 1/4"	22G
■ SROX2051V	20G x 2"	22G
■ SROX2225V	22G x 1"	24G
■ SROX2419V	24G x 3/4"	27G

Recent data provided by Animalytix* **shows Terumo is by far the market leader** among 16 manufacturers of I.V. catheters sold nationwide to veterinary practices. The reason for this is that vet practices recognize Terumo's dedication to delivering uncompromising performance catheters through a nationwide distribution network.

TERUMO MEDICAL PRODUCTS

SURFLO® ETFE I.V. Catheters

A sharp double-bevel introducer needle plus a medical grade lubricant allow for easier penetration and smoother travel through tissue. Preview chamber in clear sure-grip hub gives immediate indication of proper placement. All this plus safe, easy-to-handle, tamper-evident packaging make SURFLO® I.V. Catheters a great clinical value.

Packed: 50/box, 4 boxes/case (200)

Product Number	Description	
	Catheter	Needle Gauge
SR-OX1451CA	14G x 2"	16G
SR-OX1632CA	16G x 1 1/4"	18G
SR-OX1651CA	16G x 2"	18G
SR-OX1664CA	16G x 2 1/2"	18G
SR-OX1851CA	18G x 2"	20G
SR-OX1864CA	18G x 2 1/2"	20G

Refer to the product labels and package insert for complete warnings, precautions, potential complications, and instructions for use.

These products have no components made of natural rubber latex.

SurFlash® Polyurethane I.V. Catheters

With SurFlash® visual confirmation of catheter placement occurs due to a unique flashback feature. Flashback appears between the specially grooved needle and the catheter, providing medical staff with a higher certainty of proper catheter placement. And because SurFlash® is made of polyurethane, which is firm at room temperature and softer at body temperatures, patient comfort is enhanced without compromising proper technique.

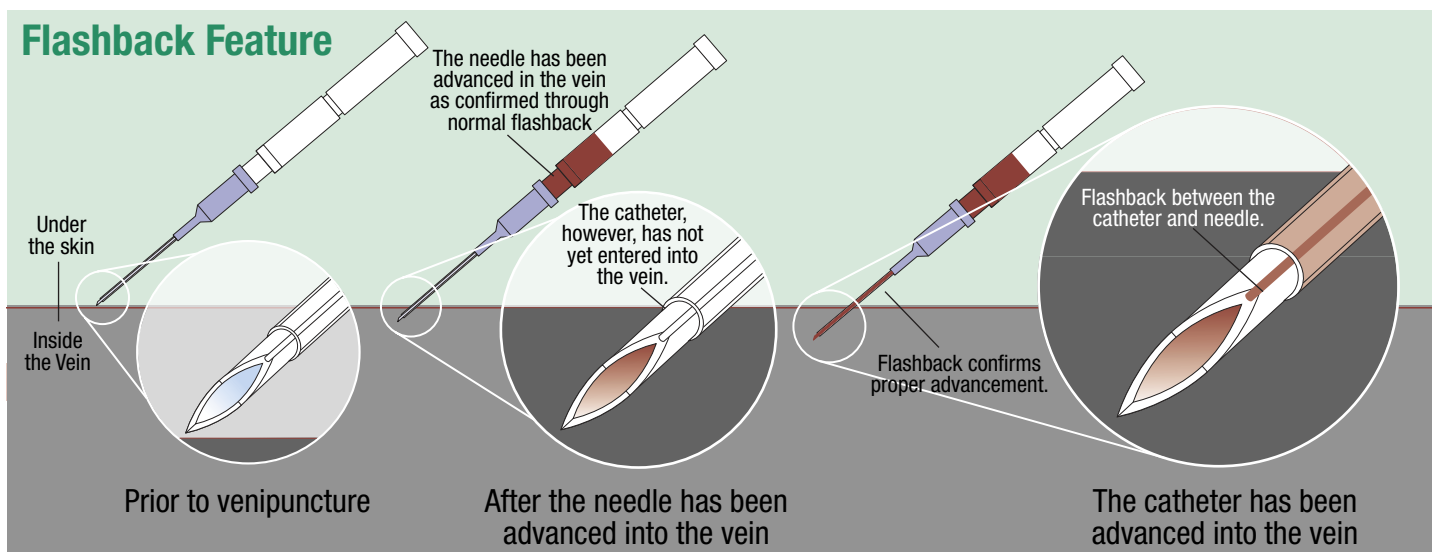

Packed: 50/box, 4 boxes/case (200)

TERUMO MEDICAL PRODUCTS

SurGuard® 3 Safety Hypodermic Needles and Syringes

With 3 ways to activate and a broader range of sizes than most other brands, SurGuard®3 is the industry's most adaptable safety needle. Add separate thumb and finger grips, sharper needles, and competitive pricing, and you'll understand why we say SurGuard®3 is the one needle that fits every animal health care provider's style.

- 3 modes of activation—thumb, finger, or hard surface
- Separate finger and thumb grips with ridges and nonslip surfaces
- Hub and needle locks
- Broad range of sizes
- Firm injection feel
- Sharpest needles among major brands tested*

TERUMO MEDICAL PRODUCTS

SURFLO® Winged Infusion Sets

Take a look at our wings versus the competition and you'll see why SURFLO® is a very well recognized brand. Terumo's soft, flexible interlocking wings readily conform to the body's contour. The needles are bonded to the wings at just under a 3° downward angle, for less risk of vessel damage or occlusion of the lumen. Attach multi-sample luer adapter to winged infusion set to use for blood collection.

All Competitors

* In Independent laboratory testing, Terumo Sur-Vet® needles were shown, on average, to be the sharpest among brands tested:

10% sharper than BD (22G - 30G)

16% sharper than Covidien (22G - 27G)

TERUMO MEDICAL PRODUCTS

Hypodermic Syringes

The plastic blister package is tamper evident for assurance of sterility. The peel-packs provide waste disposal cost savings versus the bulky plastic tube containers of some other syringes. Perhaps most importantly, Terumo syringes with needles offer maximum patient comfort delivered through ultimate sharpness and smoothness.

TERUMO MEDICAL PRODUCTS

Hypodermic Needles

Terumo needles are known worldwide for their sharpness and double-bevel design. This attention to detail enables Terumo needles to penetrate skin with less force, which can mean greater comfort for patients.

TERUMO MEDICAL PRODUCTS

Frequently Asked Questions and Technical Support

■ How can I contact Terumo Medical Products?

Please visit our website, www.TerumoTMP.com, for more information or phone Customer Care at 1-800-888-3786

■ How can I obtain samples?

Please visit our website, www.TerumoTMP.com to request samples.

■ How can I order Terumo products through a distributor?

To find a distributor, please see Terumo website: www.TerumoTMP.com and click on Customer Support to find a List of Authorized Terumo distributors. Distributors should call Customer Administration for all questions related to orders and invoices: (800) 888-3786

■ How can I obtain pricing?

You must check with your local distributor for pricing since our business is conducted through authorized distributors.

■ Where are you located?

The Terumo Medical Corporate office is located at:
265 Davidson Avenue, Suite 320, Somerset, NJ 08873
1-800-283-7866
www.TerumoTMP.com/Vet

■ What is the shelf life of Terumo Syringes?

Standard Syringes & Needles: 5 years

Injection Plugs: 2.5 years

Standard I.V. Catheters: 3 years

Standard & Safety Blood Collection/Infusion 3 years

■ I'm looking for a 6cc, 12cc, 25cc and a 35cc syringe, does Terumo make these?

Our syringes are labeled nominally as 5, 10, 20 and 30cc's, however, they have service markings to 6, 12, 25 and 35cc's respectively.

■ What's the difference between SurFlash™ & Surflo® I.V. Catheters?

- SurFlash™ is an I.V. Polyurethane Catheter which allows for a visual confirmation of catheter placement due to its unique flashback feature. SURFLO® is our regular ETFE I.V. Catheter.
- These products have no components made of natural rubber latex.

■ Do any of your Winged Needle sets contain DEHP or Latex?

No SURFLO® Winged Needle Sets contain DEHP or components made of natural rubber latex.

■ What does the “Think green. Think Terumo.” icon represent?

In 1999, Terumo Corporation developed a Basic Environmental Policy as part of our corporate mission of “Contributing to Society through Healthcare.” Since then, Terumo has engaged in a range of activities aimed at protecting the global environment. One initiative is Terumo's reduction of unnecessary plastic in our syringes, symbolized by our “Think Green. Think Terumo.” icon. Terumo's design has substantially reduced the amount of plastic used in our syringes; and as time and sales have proven this change was made without a reduction in the quality of product performance. Terumo's green products are all Terumo Syringes, Surshield Safety Winged Blood Collection Sets, Surshield Safety Winged Infusion Sets, Surflo Blood Collection Sets and all Sur-Vet Hypodermic Syringes.
